25 March 1981

MEMORANDUM FOR: Chief, Project Planning and Control,
Consolidated SAFE Project Office/ODP/DDA/CIA

THRU : Chief, Management Staff, ODP

FROM :
Security Officer, ODP

SUBJECT : Consolidated SAFE Project Security Plan

REFERENCE : Memorandum from CSPO, dated 12 March 1981,
Subject: Consolidated SAFE Project Security
Plan (ODP-81-346, SAF-E190-81)

1. The following items were noted in the Subject Security Plan to which CSPO may wish to give consideration.

a. In paragraph 2.2.1 reference is made to the

. The Security Staff/Office of Logistics should advise whether the existence of such an office is classified information.

b. The "interim approval" suggested in 2.2.1 might be further described as a "conditional interim approval." Additionally the Office of Logistics Security Representative should be required to notify the CSPO/SO when the deficiencies have been corrected and a Final Security Approval is granted after a follow-up survey.

Approved For Release 2003/12/18 : CIA-RDP84-00933R000500090019-0

CONFIDENTIAL

c. The Development Facility is new and there has been extensive coordination between the CSPO/SO, TRW/SO, and SS/OL on the security requirements. Project personnel should be alert to any change in the scope of their contract that might affect the security requirements for the Development Facility and result in even further increased costs. ☐

d. DIA certainly has security interests in SAFE and the Development Facility and their suggestions and requests must be accommodated. DIA should also receive security status reports from CSPO/SO. It should be stated in the Plan that CIA has the security cognizance for the Development Facility and has the final responsibility for establishing and monitoring security requirements. ☐

e. In paragraph 2.3.1 consideration might be given to adding the word "control" in the first sentence: "document and equipment control and transmittal and application of the contract classification guide." ☐

f. In paragraph 2.3.2, the dates should be removed. One is past and the others are upon us already. ☐

2. Another section should be added to address the subject of safety. In both the CIA and TRW, safety requirements are established and monitored by Security Managers. ☐
